

RHODODENDRONS -- WHOLESALE

LINERS

As this is being written our liners are rooting nicely. They will be transplanted for growing on, and disbudded as they push to make branched, stocky liners ready for shipment by June 1 or a little earlier, as soon as their first flush of growth has hardened up.

Price of listed dwarfs \$.75 each for 10 of a kind.

These should not be confused with "rooted cuttings" as they have been transplanted, debudded, fertilized and developed into stocky little plants all ready to make a good start in the lath house. We actually propagated many additional varieties, in small lots, so ask for any not listed -- we may have them.

PRICES OF LARGER PLANTS

Let us quote on your needs. At this time we have available budded plants of most varieties. If you are interested, let us know varieties and numbers so we can give you current information as to what is available, sizes, and prices. We also have nice unbudded plants, set in the lath house during the summer of 1960, good color, excellent for growing on. Come and see them if you can. We feel our grades are on the liberal side. If at all possible we would like to have you see the plants as we price them.

OUR LOCATION

We are on the Sand Ridge Road, about 4 miles northeast of Long Beach, on a narrow peninsula between the Pacific Ocean and Willapa Bay. This is in the extreme southwest corner of the state of Washington. Stop in and examine our plants any time you happen to be in this vicinity.

TERMS

Cash with order, F. O. B. Long Beach, Washington. Plants are guaranteed true to name but we will not be liable for more than the purchase price. Plants become your property upon delivery, in good condition, to the transportation company.

SHIPMENT

Plants will be shipped by Motor Freight, collect, unless otherwise specified. We sometimes deliver truckload orders within a radius of 200 miles, for a reasonable charge, or will quote on a "delivered" basis.
